

# How a pinch of dirt can tell you everything about a nuclear test

July 18, 2016

## [How a pinch of dirt can tell you everything about a nuclear test](#)

Scientists at Los Alamos National Laboratory in New Mexico have just discovered a fascinating new way to reconstruct past nuclear tests even decades after detonation. All they need is a pinch of dirt. It's a clever new method and the kind of thing that could make it easier to tell if rogue nations are telling the truth about their nuclear tests..
